

Redwood Adventure Camp

Guided Adult Backpacking Trip

Ready to get back into nature? Miss seeing the Milky Way? Want to re-connect with yourself at a deeper level and explore some rugged backcountry with new-found friends? Come join us for an epic, rejuvenating 5-day trek in the coastal redwood forests along Wild and Scenic South Fork of the Eel River in Mendocino County. We will hike part of Elkhorn Ridge Wilderness Area, which has very limited public access. The Elkhorn Ridge Wilderness contains rugged Coast Range ridges covered with thick forests of redwood, Douglas-fir, and tan-oak. There are two major forest types encompassing the area: mixed evergreen forest and redwood forest. Our journey will take us through a section of the seven-mile-long segment of the South Fork Eel River, designated as a Wild and Scenic River, which flows through and bisects the wilderness.

Our hike will lead us about four miles as the crow flies to our first sleeping spot along the beautiful Eel River. The group will work together to set up camp, cook meals, and break down camp. Days will be filled with hiking, rock hopping slight rapids, and swimming in the clean, clear waters of the beautiful Eel River. We will sleep under the stars to the sounds of the river discovering constellations and spotting shooting stars.

Each day there will be time set aside for a guided morning and evening reflection and prayer. This will include some solo think to engage in self-reflection and time for partner/group sharing. The opportunity to be removed from all technology allows us to focus on ourselves in a way that many of us don't experience with regularity. The focus will be on self-awareness and spiritual growth.

FAQ

- I have a specific dietary need (gluten free, vegan...) will you be able to accommodate me?
 - We try our best to accommodate various dietary needs. We need to know about your restrictions at least 30 days prior to the trip (ideally at time of registration). We will contact you in advance of the trip if we feel that you may need to supplement with some of your own food options.
- Do you provide airport pick-up?
 - Travel to and from Redwood Adventure Camp will need to be arranged by individual participants.
- If I drive to Camp, where will I leave my car?
 - We have a designated spot for parking. Due to our remote location, we rarely see strangers. Redwood Adventure Camp cannot accept responsibility for any loss or damage to vehicles or their contents.
- Will I encounter wild animals?
 - Maybe. We will be in a federally protected wilderness area. Because the area has very little human traffic, the animals are not accustomed to us and generally stay away from us. Animals seen in the past few years: deer, skunk, rattlesnakes, king snakes, river otters, river snakes and, of course, many birds, lizards and insects.
 - Animals we have seen evidence of but have not actually laid eyes on: CA black bear, raccoon, and fox.
- Are there ticks and mosquitoes in the area?
 - Yep. We recommend you bring a can of bug spray with DEET to help repel both ticks and mosquitoes.
- What happens if it rains?
 - If you've spent any time in Northern California, you know that summer rain is pretty unusual. However, it happens. If we suspect rain, our team will set up rain tarps to protect from the rain at night.
